SUNBRELLA® CLEANING PRODUCTS

PRODUCT GUIDE

Sunbrella Tested. Sunbrella Approved.

SUNBRELLA® CLEAN™
MULTI-PURPOSE FABRIC CLEANER

For everyday messes and water-based stains

WHAT IS A WATER-BASED STAIN?

Spills and stains behave differently, based on what they are composed of.
Stains fall into one of two categories: water-based or oil-based.

WATER-BASED STAINS INCLUDE:

- Common household drinks, like coffee, milk, fruit juice, soft drinks, beer and wine
- Foods like fruits/berries, ketchup, ice cream, etc.

Any water-based stain can be treated using Sunbrella Clean Multi-Purpose Fabric Cleaner.
For oil-based stains, we recommend using Sunbrella® Extract™ Oil Based Stain Remover.

For use on:

UPHOLSTERY | CUSHIONS | UMBRELLAS | FABRIC AWNINGS | BOAT COVERS | BIMINI TOPS CANVAS | HORIZON® MARINE VINYL | OTHER FABRICS

FREQUENTLY ASKED QUESTIONS

HOW DOES SUNBRELLA® CLEAN™ WORK?

Sunbrella Clean is an easy, safe and effective solution that breaks down everyday dirt and grime on water-safe fabrics and surfaces.

CAN I USE SUNBRELLA CLEAN ON ALL FABRICS?

Sunbrella Clean has been tested and approved for use on all Sunbrella fabrics, including indoor and outdoor upholstery and Horizon Marine Vinyl. Sunbrella Clean is also safe for use on most other water-safe fabrics and surfaces but should always be spot-tested before use on non-Sunbrella fabrics. Test a small, hidden area and examine when dry. If color or texture is affected, do not use.

WHAT SPILLS DOES SUNBRELLA CLEAN WORK ON?

Sunbrella Clean works great on everyday dirt, grime, spills and water-based stains.

DOES SUNBRELLA CLEAN WORK ON MOLD AND MILDEW?

We recommend using our Sunbrella Clean Multi-Purpose Fabric Cleaner followed by a diluted bleach solution to completely remove mold and mildew.

DIRECTIONS FOR USE:

1. Remove excess liquid/debris from stain before cleaning.
2. Spray a light mist evenly over soiled area.
3. Gently agitate with a soft bristle brush.
4. Wipe with a damp cloth or rinse thoroughly.
5. Repeat as needed.
6. Blot excess water remaining and air dry.

For specific stain cleaning information, refer to *How to Clean Sunbrella Fabric* information on Sunbrella.com

BEFORE USING ON NON-SUNBRELLA FABRICS:
Test a small, hidden area for colorfastness and examine when dry. If color or texture is affected, do not use.

SUNBRELLA® EXTRACT™
OIL BASED STAIN REMOVER

Draws out the toughest, deep-down oil-based stains in two easy steps

WHAT IS AN OIL-BASED STAIN?

Spills and stains behave differently, based on what they are composed of. Stains fall into one of two categories: water-based or oil-based. Oil-based stains are the toughest to completely remove, as they are hydrophobic and repel water.

OIL-BASED OR GREASE STAINS INCLUDE:

- Cooking oils, like olive oil, vegetable oil and canola oil
- Condiments, like salad dressing and mayonnaise
- Cosmetics, like liquid makeup, moisturizers and sunscreen
- Other household oils such as coconut oil, butter and teak oil

Oil-based stains can be treated using Sunbrella Extract Oil Based Stain Remover. For water-based stains, we recommend using Sunbrella® Clean™ Multi-Purpose Fabric Cleaner.

For use on:

UPHOLSTERY | CUSHIONS | UMBRELLAS | FABRIC AWNINGS | BOAT COVERS BIMINI TOPS | CANVAS | OTHER FABRICS

Not for use on Sunbrella® Horizon® Marine Vinyl.

FREQUENTLY ASKED QUESTIONS

HOW DOES SUNBRELLA® EXTRACT™ WORK?

Sunbrella Extract's fast-acting formula penetrates deep into the fiber of the fabric, targeting stain particles and lifting them to the surface in an easy-to-remove powder.

CAN I USE SUNBRELLA EXTRACT ON ALL FABRICS?

Sunbrella Extract has been tested and approved for use on all Sunbrella fabrics (except for Horizon Marine Vinyl). Sunbrella Extract is also safe for use on most other water-safe fabrics, but should always be spot-tested before use on non-Sunbrella fabrics. Test a small, hidden area and examine when dry. If color or texture is affected, do not use.

WHAT SPILLS DOES SUNBRELLA CLEAN WORK ON?

Sunbrella Extract works great on removing tough oil and grease stains. It also may be effective for lingering spots that didn't clean up fully the first go around.

DIRECTIONS FOR USE

1. Shake well before use.
2. Remove excess liquid/debris from stain before cleaning.
3. Let stain dry before treating.
4. Hold can upright, 6-8 inches away from stain. Spray in a circular motion just outside the perimeter of the stain, slowly working inward until stain is completely covered.
5. Allow cleaner to dry completely.
6. Use a vacuum or soft bristle brush to remove powder.
7. Repeat as needed for tough or set-in stains.

TIP: Sunbrella Extract works best when stain and fabric are completely dry. For specific stain cleaning information, refer to *How to Clean Sunbrella Fabric* information on Sunbrella.com

BEFORE USING ON NON-SUNBRELLA FABRICS:

Test a small, hidden area for colorfastness and examine when dry. If color or texture is affected, do not use.

SUNBRELLA® RESTORE™
FABRIC PROTECTOR & REPELLENT

Adds an invisible layer of protection to outdoor fabrics and restores water-repellency

WHY RETREAT MY FABRICS?

After many years of use or several thorough seasonal cleanings, retreating your Sunbrella outdoor fabrics restores and strengthens their natural properties—like water and stain repellency—that may have been lost over time.

Sunbrella Restore Fabric Protector & Repellent keeps your fabrics looking and feeling fresh—renewing lost water repellency, cleanability and stain resistance so your outdoor fabrics stay looking great for many years to come.

For use on:

OUTDOOR CUSHIONS | OUTDOOR PILLOWS | OUTDOOR UPHOLSTERY | FABRIC AWNINGS UMBRELLAS | BOAT COVERS | BIMINI TOPS | OTHER OUTDOOR FABRICS

Not for use on Sunbrella® Horizon® Marine Vinyl.

FREQUENTLY ASKED QUESTIONS

HOW DOES SUNBRELLA® RESTORE™ WORK?

Sunbrella Restore adds an invisible layer of protection to outdoor fabrics, restoring water repellency and protecting fabrics from the elements.

CAN I USE SUNBRELLA RESTORE ON ALL FABRICS?

Sunbrella Restore has been tested and approved for use on all Sunbrella outdoor fabrics (except Horizon® Marine Vinyl). Sunbrella Restore is also safe for use on most other water-safe fabrics, but should always be spot-tested before use on non-Sunbrella products. Test a small, hidden area and examine when dry. If color or texture is affected, do not use.

HOW MANY SQUARE FEET WILL A BOTTLE OF SUNBRELLA RESTORE COVER?

A 16 fl. oz. bottle of Sunbrella Restore covers between 40-75 sq. ft. on average. A 32 fl. oz. bottle of Sunbrella Restore covers between 80-150 sq. ft. on average.

DO I NEED TO RETREAT MY SUNBRELLA PRODUCTS?

Sunbrella fabrics are engineered to provide long-term performance. However, after repeated thorough cleanings or extended use, Sunbrella Restore is a great option if you are looking for an easy way to refresh your fabrics.

CAN I USE THIS PRODUCT INDOORS?

No, this product is for use outdoors, in well-ventilated areas only.

DIRECTIONS FOR USE

1. Clean fabric and let dry completely. Only use on thoroughly clean and dry fabrics.
2. Spray product directly onto clean, dry fabric until evenly saturated, overlapping in a crisscross pattern. Do not oversaturate.
3. Let dry.
4. Cure treated material 12-24 hours, depending on temperature. Protect from rain and dew until fully cured.
5. Retreat as needed.
   For best results, apply product to fabric in temperatures above 70°F/21°C. For faster drying, apply in full sun.

BEFORE USING ON NON-SUNBRELLA FABRICS:
Test a small, hidden area for colorfastness and examine when dry. If color or texture is affected, do not use.
